PRASAD SHETTY

ERP & Application Support Specialist | SAP B1 | SQL & Data Reporting

Udupi, Karnataka, India | 8151030788 | prasaaad333@gmail.com | prasadshetty333.github.io

PROFESSIONAL SUMMARY

M.Sc. Computer Science graduate with hands-on experience in ERP administration, application support, and enterprise software implementation. Currently working as Executive Software Support at Manipal Academy of Higher Education (MAHE), managing SLCM administration on a Salesforce-based platform, user support, vendor coordination, and query-based reporting. Skilled in SQL, SOQL, Salesforce platform fundamentals, troubleshooting, and stakeholder coordination, with additional experience in SAP Business One (SAP B1), POS integration, and full-stack web development using Node.js and Angular. Recently completed certifications in Salesforce Basics, Microsoft Power Platform, and Data Analytics, expanding capability in CRM platforms, low-code automation, and data-driven reporting.

PROFESSIONAL EXPERIENCE

Executive Software Support Feb 2026 – Present

Manipal Academy of Higher Education (MAHE), Bengaluru

- Working as an SLCM (Student Life Cycle Management) Administrator, handling application support and day-to-day operational activities on a Salesforce-based platform.
- Gained hands-on exposure to the Salesforce platform, including user/access management, object and record handling, and SOQL-based querying and reporting.
- Provide technical and functional support to students and faculty for SLCM-related issues, resolving tickets within defined timelines.
- Coordinate with software vendors and technical teams for issue escalation, bug tracking, and system improvements.
- Develop SOQL and query-based reports to generate academic and administrative reports and support data retrieval requirements.
- Handle user account management, access control, and data verification activities within the SLCM system.
- Prepare Excel-based reports, data analysis, and operational tracking reports for management and departments.
- Assist in system administration, troubleshooting, and day-to-day application monitoring activities.
- Communicate with different departments to understand issues, provide effective solutions, and maintain documentation of issues, resolutions, and support activities.

Executive Software Implementer Aug 2024 – Feb 2026

Prakash Retail Pvt. Ltd.

- Worked on implementation and functional support of SAP Business One (SAP B1).
- Contributed to POS system implementation, with strong understanding of end-to-end POS workflow and transaction lifecycle.
- Performed testing and validation of integration between SAP B1, POS systems, and other business applications to ensure accurate data flow.
- Wrote and optimized SQL queries in Oracle database for reporting and data validation.
- Assisted in system configuration, UAT testing, and post-deployment support activities.
- Provided end-user training and resolved application-level issues.
- Prepared Excel-based reports for data reconciliation and operational tracking.

Software Developer Intern Mar 2024 – Aug 2024

Chipsy IT Services Pvt. Ltd.

- Developed a complete web-based driving class booking application using Node.js, AngularJS, Express.js, and MongoDB.
- Designed backend APIs and handled database schema creation and CRUD operations.

- Implemented frontend components and integrated them with backend services.
- Managed authentication logic and booking workflow functionalities.
- Participated in testing, debugging, and deployment processes, gaining hands-on experience in the full Software Development Life Cycle (SDLC).
